DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-11, drawn to trading over computer networks, classified in class 705, subclass 37.
- II. Claims 12-13, drawn to metaphoric computer objects suggesting a business environment, classified in class 345, subclass 775.
- III. Claims 14-26, drawn to a user defined collaborative environment, classified in class 709, subclass 205.

The inventions are distinct, each from the other because of the following reasons:

Inventions I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, each invention has separate utility as detailed above. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
